

## Air Jack M67.5

**Z-Z 0067 0251**

Bore size 60 mm, 246 mm stroke

Specifications	
<b>Material:</b>	
Housing	Material EN-AW 7075
Spring	Corrosion resistant steel
Guides	High-pressure polyethylene, green
Surface	GSX anodic oxidation, black
<b>Total length</b>	316 mm
<b>Stroke</b>	246 mm
<b>Outer diameter</b>	67,5 mm
<b>Weight</b>	1260 g
<b>Lift capacity</b>	See diagram
<b>Max. operating pressure</b>	40 bar
<b>Burst pressure</b>	100 bar
Connections	
<b>Compressed air side</b>	M14x1,5 internal thread
<b>Fastening air jack</b>	M67,5x1,5 external thread

The SOBEK Air jack is a component of high-quality and is constructed especially for motorsport. This model has the following technical characteristics:

- integrated shock absorber
- inline spring
- low friction interior contour
- low friction and low wear guides
- extreme compact construction

Annual maintenance is recommended, even though the air jack is largely maintenance-free.
